You can get a measure of independence back in your life with [SOCIAL SECURITY DISABILITY BENEFITS](#).

Get A Disability Lawyer Who's Focused, Experienced & Local

Your financial future and stability depend on your Social Security Disability application.

Because this is about your health and your ability to support yourself, this is personal. You don't want just anyone helping you win benefits. You want a Social Security Disability lawyer who's **focused, experienced & local**.

FOCUSED.

Social Security has its own separate legal system for deciding who gets approved for disability benefits. This system has its own rules—and even its own courts and judges.

It's different from other courts and other legal situations. That's why you want an attorney who focuses on Social Security Disability law.

Many law firms handle lots of different cases. Working with them for disability isn't the same as getting someone who deals with the Social Security system all the time, every day.

That's what we do at Nash Disability Law.

We know Social Security Disability inside and out.

EXPERIENCED.

When it's your benefits on the line, you want a lawyer who's handled thousands of disability claims.

At Nash Disability Law, we've seen just about every situation that can come up with disability applications and appeals.

We've been doing this for over 40 years.

LOCAL.

You may find out-of-town or national law firms that say they can handle your disability case.

Be careful with them. Local is better.

Here's why:

- You get personal attention with a local lawyer. You may barely see your lawyer from a national firm. Your Nash Disability lawyer will work closely with you and meet you face-to-face before you go to your disability appeals hearing.
- You'll get someone who knows how the system works locally. Nash Disability attorneys know the Chicago area Social Security offices, the people who work there, the administrative law judges who decide cases, and the doctors and other health care providers in our area who you may need to visit to collect the medical evidence you need. Out-of-town firms drop in without knowing the local landscape.

If a [PHYSICAL OR MENTAL CONDITION](#) is expected to keep you from working for at least one year, give us a [CALL TODAY](#) at [\(312\) 219-9381](#). If English is not your first language, our [DISABILITY TEAM](#) speaks [SPANISH](#) and Polish.

WE'RE HERE TO HELP YOU FROM START TO FINISH.

What Kind Of Benefits Do You Need?

Need To Apply For Social Security Disability Benefits?

When you're [APPLYING FOR SOCIAL SECURITY DISABILITY](#) benefits, you have to show three things:

- You can't switch to a different line of work.
- Your medical impairments will last at least one year.

To prove this, you have to fill out forms, submit medical records, get statements from people who know you and more.

If you have questions, you can read more about [QUALIFYING FOR SOCIAL SECURITY DISABILITY](#). Or get in touch with Nash Disability Law now.

Denied Social Security Disability Benefits?

According to Social Security's own statistics, you're more likely to appeal working with an attorney than trying to appeal on your own. We'll fight to have your claim reconsidered, and we'll guide you through the hearing process. Every day, we help Chicago area people win the disability benefits they need.

If you're worried about cost, don't be — **you pay no attorney fee unless you win benefits!** And if you do win, the fees come out of your back benefits, not from your pocket.

If you can't work and need to apply for disability benefits, let our disability lawyers help you.

“YOUR BENEFITS ARE OUR PASSION! THE TRUTH IS, YOU INSPIRE US.”
