COULD YOU GET MORE IF YOU HAVE HELP?

If you've been struggling to get the support you need after an injury on the job—struggling with your employer, the insurance company, doctors and the legwork—there's another place you can turn to be treated, finally, like a human being:

The **Workers' Compensation, LLC**, law firm.

Our workers' comp lawyers know what these benefits mean to you. Workers' comp can put you back on solid financial ground and help you maintain the lifestyle you worked hard to build up until you got hurt.

But, sometimes, employers and insurance companies don't want you to know all the benefits and reimbursements you're entitled to receive.

They'll try to give you less than they should. They'll try to cut off your benefits early. They'll try to **deny your benefits** altogether.

We don't work for insurance companies trying to save themselves money. We're lawyers dedicated to helping individual Louisiana workers when they're injured on the job.

In Metairie, New Orleans, Hammond, the Northshore, Baton Rouge, Houma, Lafayette, Alexandria, Shreveport, Monroe—**anywhere in Louisiana**—after you're hurt at work, talk to us.

Our workers' comp lawyers have over 130 years of combined experience. We've helped over 10,000 people.

Workers' Comp Is What We Do.

DO I QUALIFY FOR LOUISIANA WORKERS' COMP?

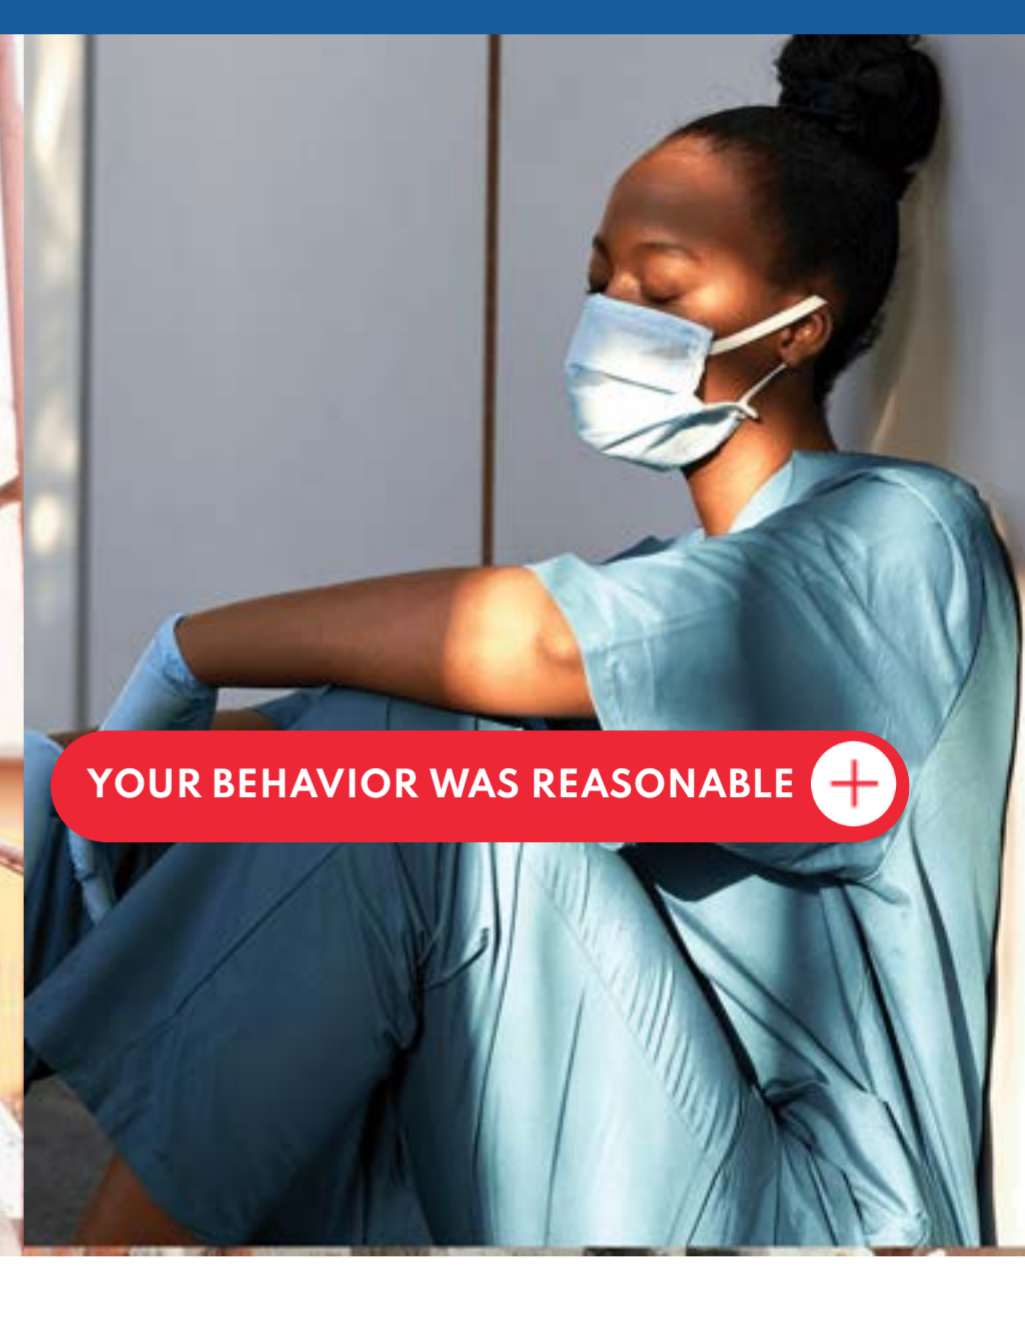

The qualifications you must meet to be covered by workers' compensation in Louisiana are really pretty simple.

YOU'RE AN EMPLOYEE +

IT'S A WORK INJURY +

YOUR BEHAVIOR WAS REASONABLE +

WHAT CAN I GET FROM LOUISIANA WORKERS' COMP?

The benefits you get from Louisiana workers' comp can be life changing.

These benefits can make the difference between personal financial crisis and long-term stability.

The system was established by the Louisiana Workers' Compensation Act to provide fast help to injured workers.

This is what workers' comp benefits pay:

- Lost Wages:** When you can't work, benefits include weekly checks covering a portion of the income you're missing.
- Medical Care:** All medical treatment related to your workplace injury or illness is covered.
- Reimbursement:** You can receive reimbursement for some expenses caused by your injury, such as travel to doctor appointments.
- Payment for Reduced Earnings:** If your injury means you can't earn as much even after you go back to work, you can receive a supplement to your pay.
- Job Placement Support:** A program called vocational rehabilitation is supposed to help you return to work. Proceed with caution because insurance companies use this to shorten your benefits.

The Louisiana workers' comp lawyers at Workers' and Enforcement, LLC, understand everything you're supposed to get—and enforce that for you.

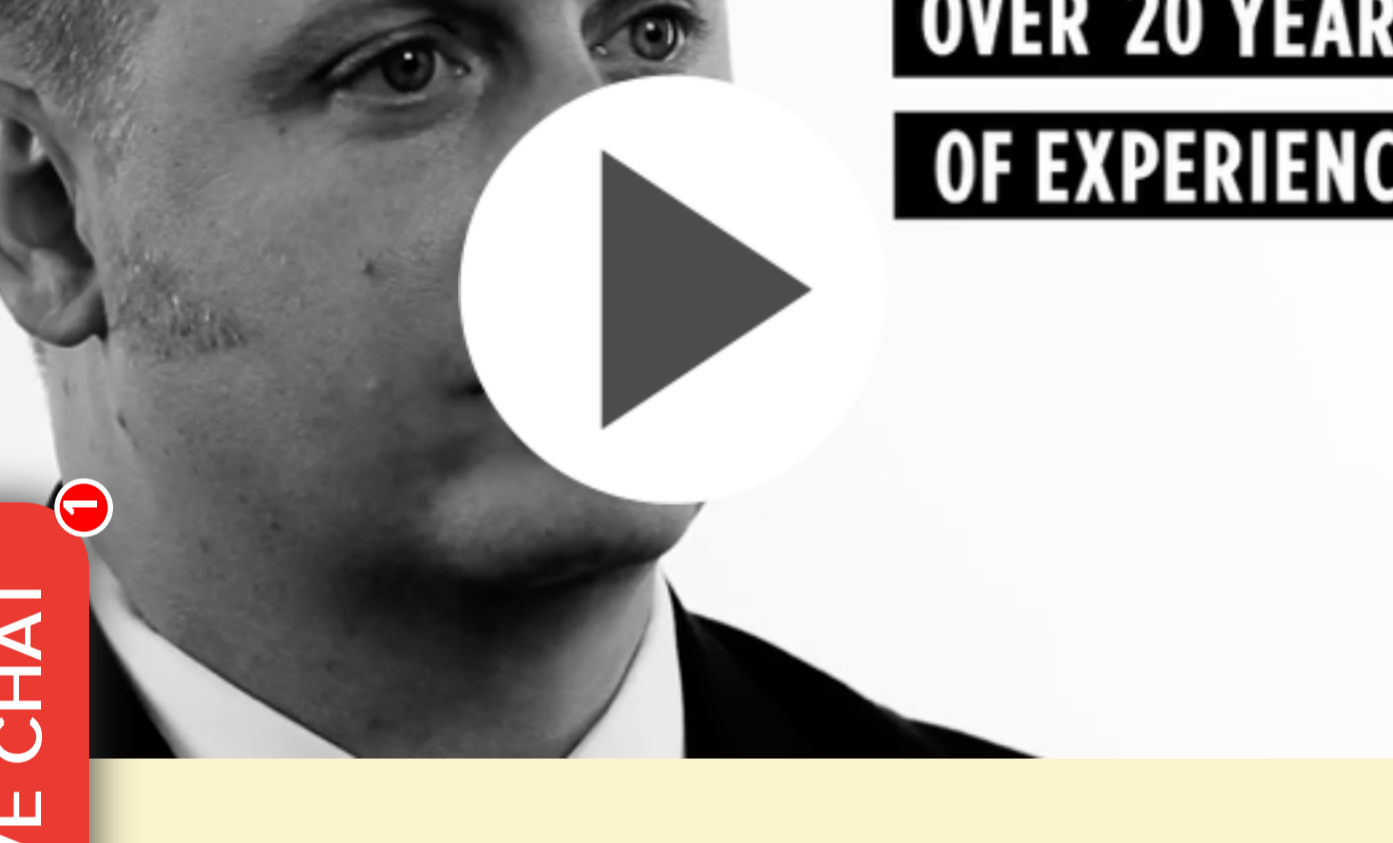

It's all too common for workers' comp providers to reject some benefits, send payments too late, cut off benefits prematurely, or even fail to tell you about all the benefits you're qualified to receive.

You can start with us by getting a free evaluation of your claim.

Workers' Compensation, LLC, helps people like Ann Robert-Dimes get back on solid ground after injuries on the job.

OVER 20 YEARS OF EXPERIENCE

"DON'T TRY TO PLAY THE WORKERS' COMPENSATION GAME ALONE"

Workers' compensation attorney Daren Sarphie explains how the workers' comp system was set up to cover your medical care and lost wages after an injury on the job.

WORKERS' COMP LAW IS DIFFERENT

When you are filed for workers' compensation, **it doesn't matter whether anyone was at fault in your injury**. It's about whether it happened at work, and that's it. **It doesn't mean you have to sue your employer.** A special kind of lawyer can help you claim your maximum benefits. **It's not like a personal injury case after a car accident.** You are entitled to these benefits.
